Election/Restrictions

- 1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-14, drawn to a flywheel power supply system.
- II. Claims 15-17, drawn to UPS system providing power for solid-state technology, which has two power modules: utility module and flywheel module.
 - III. Claims 18-19, drawn to power supply system with rectifier and converter.
- 2. The inventions are distinct, each from the other because of the following reasons: Inventions of Group I through III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together, or they have different modes of operation, or they have different functions, or they have different effects.

 (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different modes of operation, functions and effects.
- 3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
- 4. During telephone conversation with Mr. John Yankovich (Reg.No. 42240) on May 23, 2005 it was decided to provide a written election-restriction requirement, for the applicant(s)' convenience.
